

OCEAN COUNTY RECYCLING DIRECTORY

2 Good 2 Waste

Welcome to the 2011 Ocean County Recycling Guide. Annually, the Ocean County Board of Chosen Freeholders provides you with an updated comprehensive recycling directory that we hope answers your many questions and concerns about recycling in your County and your town.

Recycling is the cornerstone of the Ocean County Solid Waste Management Plan and it provides a host of economical and environmental benefits. Ocean County towns saved nearly \$4 million in tipping fees in 2010 by recycling 55,235 tons of material.

Ocean County launched an Internet based waste exchange program this year called 2Good2Waste Ocean County that focuses on the reuse of materials. See page 12 of this guide for website address. It is the first of its kind in New Jersey. The program is free to County residents and provides an item exchange venue that lets residents give away, trade, or sell household items at a minimal price that might otherwise have ended up in the landfill.

Other highlights of this directory are Ocean County's schedules for the Fall Household Hazardous Waste Program and the Fall Document Shredding Program.

Our residents have embraced recycling and we appreciate their ongoing efforts. We encourage everyone to recycle allowing us to continue to derive these important economical and environmental benefits we have all come to enjoy.

NORTHERN & SOUTHERN RECYCLING CENTERS

The Ocean County Northern Recycling Center consists of a 60 acre site which includes a new single stream facility with state of the art processing equipment, two large compost fields, backyard compost demonstration area, 24 hour resident drop-off recycling center and a special waste drop-off area. The 24 hour resident recycling center is located at 601 New Hampshire Avenue, Lakewood Township. The special waste, compost and wood chip pick-up areas are located at the 535 Oberlin Avenue entrance. If you have any questions please call **732-367-0802**.

The Ocean County Southern Recycling Center consists of a recyclables transfer station, special waste building and a compost facility which is located at 379 Haywood Road. The resident recycling center located at 350 Haywood Road, Stafford Township, is open 24 hours. If you have any questions please call **609-978-0913**.

RECYCLING COLLECTION

The New Jersey Mandatory Recycling and Source Separation Act and the Ocean County Recycling Plan requires municipalities to make provisions for the collection of residential recyclables including: bottles and cans, newsprint, cardboard and mixed paper.

The curbside collection of recyclables varies significantly with many municipalities providing weekly collection and others providing bi-weekly collection. All the municipalities are required to make provisions to collect the mandatory recyclable material from residential areas. Many coastal communities have a summer and winter collection schedule to accommodate the increases in quantities generated by summer vacationers. A number of municipalities provide a drop-off center where residents can bring recyclables. Please review the table on pages 6 and 7 for details on drop-off centers. In addition, the municipalities are responsible for the collection of bulky items and appliances. Please contact your municipal recycling coordinator to obtain information on procedures and fees.

FREQUENTLY ASKED QUESTIONS

1. How can I recycle telephone books and hardbound books?

A: Remove covers on hardbound books and place in with regular recyclables.

DO NOT recycle telephone books with regular recyclables. They are accepted at the County's two Recycling Centers. Also check with your local public works office to see if they accept them.

2. What do I do with propane tanks?

A: If your local recycling center does not accept them (check pages 6&7) contact a local propane distributor for proper disposal or exchange. **Propane tanks are not accepted** at the County's two Recycling Centers. Ask your local HomeDepot, Lowes and propane distributor about their trade-in policy. Scrap dealers may also accept them. (See page 8)

MUNICIPAL FINANCIAL ASSISTANCE

OCEAN COUNTY RECYCLING GRANT PROGRAM:

Since 2001 the County has funded over \$1.3 million in municipal and school projects. The Ocean County Board of Chosen Freeholders established this program to provide support and incentive for municipalities and schools to improve their existing recycling programs and thereby hopefully reduce the cost of trash disposal. This program offers financial assistance to interested municipalities and schools for projects such as improvements to existing recycling centers or development of new residential recycling centers, new recycling collection containers for the classroom and educational materials to improve and increase recycling efforts in their communities. Each municipality and school district that receives funding is required to provide at least 50% of the proposed funds. The Freeholders awarded in 2011 the following schools and municipalities a total of **\$136,298.28**: Toms River Township \$39,652.50; Borough of Ship Bottom \$2,478.50; St. Joseph Grade School \$273.00; Berkeley Township Elementary School \$3,274.48; Bayville School \$724.80; Monsignor Donovan High School \$819.00; Borough of Beachwood \$3,987.50; Lacey Township High School \$1,897.00; Lacey Township \$20,247.50; Long Beach Township \$25,000.00; Borough of Seaside Heights \$10,144.00; Brick Township \$27,800.00. The recycling grant program is funded from the State Recycling Enhancement Act Tax and the County Recycling Revenue Sharing Program.

RECYCLING REVENUE SHARING PROGRAM

Ocean County shares 50/50 with the municipalities from the sales of recyclables processed at the Materials Processing Facility at the Ocean County Northern Recycling Center. The County returns revenues to each municipality that participates in the County's recycling program. Since the recycling revenue sharing program began in 1995 by the Ocean County Board of Chosen Freeholders, over **\$12 million** has been returned to municipalities. The more your town recycles the greater the economic benefit will be. The money can be used to fund existing recycling programs such as improvements to existing recycling drop-off centers, purchase roll off containers or other projects deemed appropriate by the town. Towns will be receiving revenue checks that can total anywhere from \$969 to \$184,000 for their recycling efforts. For the first half of 2011 a total of **\$917,436.01** will be awarded to the following municipalities: Barnegat \$31,089.70; Barnegat Light \$2,620.92; Bay Head \$2,523.57; Beach Haven \$6,802.56; Beachwood \$13,590.84; Berkeley \$48,109.07; Brick \$100,222.47; Eagleswood \$2,926.47; Harvey Cedars \$1,590.31; Island Heights \$2,851.19; Jackson \$53,883.61; Lacey \$48,077.66; Lakehurst \$3,486.43; Lakewood \$140,140.65; Lavallette \$5,816.60; Little Egg Harbor \$34,324.31; Long Beach Township \$13,730.24; Manchester \$39,362.89; Mantoloking \$969.35;

Guidelines for Proper Disposal of Household Medication

DO NOT flush unwanted medications or pour down sinks or drains. Traces of certain medications have been found in local waterways, such as Barnegat Bay. They harm fish and wildlife. Also, improper disposal in your trash allows others to divert the substance and consume medication not prescribed to them:

- Keep medicine in original container. Mark out personal information on prescription bottles.
- Mix liquid medicine with coffee grinds, cat litter or dirt. Dilute pills with water and then add coffee grinds, cat litter or dirt.
- Place bottles in an opaque container, like yogurt container, and secure lid, or wrap in a dark colored plastic bag.
- Hide the container in the trash. **DO NOT RECYCLE.**

For more information contact the NJ Dept. of Environmental Protection Solid & Hazardous Waste Program at 609-633-1418 or go to www.state.nj.us/dep/dshw/rttp/disposal.pdf

NEW 2011 TIRE RECYCLING PROGRAM

On December 31, 2010 the New Jersey Department of Environmental Scrap Tire Grant ended in Ocean County and the funding that was earmarked for tire recycling in the County ended. The fee that had been waived for quite some time has been reinstated as of January 1, 2011. The County will only accept tires, no larger than 10/20, without rims, from **residents only** of Ocean County at our two recycling facilities in Lakewood and Stafford Townships Monday-Saturday 7:30 am to 3:00 pm. Proof of residency or tax bill must be presented. The price per tire for residents will be \$2.00 with a limit of 5 tires daily. Also check the chart on pages 6 & 7 to see if your local public works yard accept tires from residents.

Also beginning January 1, 2011 all Ocean County municipalities, retirement villages and schools must take the tires directly to an approved tire recycling center of their choosing. With the grant funds expended and due to budgetary constraints, the County can no longer pay for tires recycled by these entities. See page 8 for a list of facilities that accept tires.

COMPOST CLASSES

The Board of Chosen Freeholders with the Department of Solid Waste Management sponsor *free* "how to" compost classes each spring and fall for Ocean County residents and taxpayers. Residents can learn how to manage their organic waste and understand the environmental benefits of home composting in these classes taught by *Ocean County Master Composters*. Classes are held in the Ocean County Recycling Education Center at the Northern Recycling Center in Lakewood Township. Classes run approximately an hour and a half and are *limited* to 25 people. Registration is required for these classes. For further information, please call 732-506-5047 or visit our website at www.co.ocean.nj.us/recycle
